APPLICATION FOR A LEAK ADJUSTMENT

Date: _____

Account No. _____

Customer: _____

Service Address: _____

Mailing Address: _____

Contact Phone: _____

Pursuant to Ordinance No. 1725 a Leak Adjustment may be granted as follows:

- Verification that the leak existed and has been repaired in accordance with the Uniform Plumbing Code Requirements. Such verification may require on-site inspection by City employees.
- The charge for the period must exceed two times the customer's average water usage
- Customer shall be entitled to only one adjustment per year
- The leak must be repaired within in 15 days after it is discovered by said customer. The City's monthly statement showing water consumption which is a minimum of sixty percent (60%) greater that the customer's average water usage shall be deemed notice to the customer that the leak exists.
- The City may discontinue service to any premises if the owner and/or occupant refuse to make repairs necessary to avoid waste of water.
- Adjustment shall not exceed fifty percent (50%) of the total charge for the billing period less the customer's average water usage charge
- Average water usage shall be computed by determining total water consumed the preceding thirty six months divided by 36 months multiplied by the number of month(s) for which an adjustment is sought.
